EXPERIENCE

Netv S.A.

Full Stack Developer & Project Lead

December 2022 – Present

- Development of SaaS apps and REST APIs using **Python** (Flask, SQLAlchemy, Pytest), **React/Next.js** and **MySQL**.
- End-to-end project management, including architecture design, data modeling and **deployment on AWS**.
- **Technical leadership of a development team**, task assignment, prioritization and delivery coordination.

Zoo Logic S.A.

.NET & Visual FoxPro Developer

May 2022 – November 2022

- Developed integrations in **.NET (C#)** between legacy **Visual FoxPro** systems and external services (REST APIs, POS devices, and Windows libraries).

Technical Support (Help Desk)

February 2017 – April 2022

- Provided phone-based and remote support for point-of-sale management systems.

Faculty of Engineering – University of Buenos Aires (UBA)

Teaching Assistant – Algorithms and Programming I

March 2018 – June 2020

- Graded **Python** assignments, focusing on best practices and modular code.
